PROFILE

Computer Science Engineering student with strong knowledge of Data Structures & Algorithms, Full Stack Development, Cloud Computing, and Cybersecurity fundamentals. Experienced in building scalable web applications, REST APIs, AI-powered systems, and real-time dashboards using Java, Python, React, Node.js, and Spring Boot. Passionate about problem solving, secure software development, and AI-driven automation.

EDUCATION

Chitkara University, Punjab

2023 – 2027

B.Tech in Computer Science Engineering

CGPA: 8.32

TECHNICAL SKILLS

Programming Languages: Java, Python, JavaScript, SQL

Frontend: HTML, CSS, JavaScript, React.js

Backend & Frameworks: Node.js, Express.js, Spring Boot, Flask, REST APIs, Maven

Core Concepts: Data Structures & Algorithms, OOPs, DBMS, Computer Networks, Software Engineering, System Design, SDLC, Agile

Cloud & Security: AWS, Cloud Computing, Network Security, Cybersecurity Fundamentals, TryHackMe, CyberChef

Tools: Git, GitHub, Postman, Selenium, Jira, API Testing

PROJECTS

AI Resume Analyzer

Python, Flask, AI, Scikit-learn

- Developed an AI-powered ATS Resume Analyzer using Python Flask and Machine Learning.
- Implemented PDF resume parsing using PyPDF2 and job description matching using TF-IDF and Cosine Similarity.
- Added ATS score calculation, grammar checking, missing skill detection, AI-generated suggestions, and resume summary generation.
- Integrated AI APIs for resume improvement recommendations and bullet point enhancement.

AEGIS v3 – Global Multi-Domain Threat Detection Platform

React, Node.js, Express, Socket.IO, Leaflet

- Developed a real-time threat intelligence dashboard for live monitoring and visualization.
- Integrated OpenSky and AISHub APIs for global air and maritime tracking.
- Implemented WebSocket-based live updates and AI-generated threat reports for intelligent monitoring.

E-Commerce Platform

Java, Spring Boot, Maven

- Built scalable backend APIs with secure authentication and product management features.
- Integrated database operations and implemented RESTful architecture principles.
- Applied modular backend design and API testing best practices for maintainability.

ACHIEVEMENTS

- Secured **3rd Prize at CYBPRO-2025** for an AI-based Cybersecurity project currently under patent filing process.
- Solved **300+ coding problems** on LeetCode focused on DSA and problem-solving.
- Built multiple full stack and AI-powered projects focused on automation and cybersecurity.

CERTIFICATIONS

- Java (Basic) Certification – HackerRank
- Introductory C Programming – Coursera
- IBM Cybersecurity Essentials – Coursera
- Introduction to Cloud Infrastructure – Microsoft
- AZ-900T00-A: Introduction to Cloud Infrastructure – Microsoft

STRENGTHS

Goal-Oriented • Quick Learner • Problem Solving • Resilient • Team Collaboration • Adaptability
